

DofE Expeditions

Phone Policy

The Expedition Section is designed to develop self-reliance and self-confidence through isolation and remote supervision, overcoming challenges and managing risks as an independent team of peers

One of the objectives of the DofE Expedition is that participants appreciate the countryside without the distractions of modern life.

We do, however, accept that phones can and should still be used for legitimate purposes -

You and your team will be briefed in the proper use of a phone on expedition by your instructor. You will need to nominate two people to carry the phones. (Ideally these phones will be on two different networks as this means there is greater chance of network coverage) – As a Team you will be asked to download the following apps on to your devices.

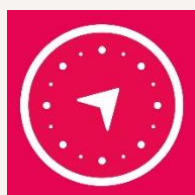

You will not be able to use these phones whilst at camp.

You are advised to bring a power bank

We have teamed up with YONDER to limit the use of phones on expeditions. This allows participants to keep hold of their phones and maintain responsibility in looking after during activity time. Your School may already use YONDER so you may already be familiar with this system.
